Black 36-inch
Taffeta for \$1.00**Saturday.**

A large umbrella maker, to get our name on his books, gave us a big temptation. He offered to sell us one hundred Umbrellas with 36 inch paragon frame, rainproofed covers with pearl and metal handles (metal handles that will never tarnish) at a price too tempting for us to refuse. Now we want to turn them into money at once and on Saturday shall sell them at only a small percent above what they cost us. See them and we are sure you'll be tempted even like as we were.

Truss Fitting

Whoever professes to fit trusses accurately should have complete knowledge of **Rupture** or **Hernia** in all its forms and understand how to return the obstruction so that the patient may have entire comfort while wearing the truss and relief from the depression and pain caused by the hernia.

To gain this knowledge requires much study of the many different kinds of rupture and a great deal of experience in fitting trusses to each form of injury.

I have been fitting trusses for many years and have come in contact with every form of abdominal hernia. I have made a study of different forms of rupture and know the proper means of returning the obstruction.

Inguinal Hernia, Scrotal Hernia, Ventral Hernia and all forms of **Abdominal Hernia** I understand thoroughly and can fit you with a truss that will retain the obstruction and be worn in comfort by you.

I have every conceivable form of truss for any kind of rupture. I absolutely guarantee to fit you comfortably with a truss that will hold the rupture securely in place. I charge nothing for fitting and sell you the truss at a price you will say is very low considering the expert care used in fitting.
